

## Ngā Toi o Kaiti - The Arts of Kaiti

Did you know Kaiti is home to one of the greatest works of art made in Aotearoa in the 20th century?

Te Poho o Rawiri wharenui, opened in 1930, is a masterpiece. Carved by Pine Taiapa and the other carvers of the Rotorua School of Arts and Crafts and supervised by Tā Āpirana Ngata, Te Poho o Rawiri is both innovative and traditional, respecting the past while also taking into account changing lifestyles and culture. Its whakairo (carvings), tukutuku (weavings) and kōwhaiwhai are outstanding.

This issue of *Kaiti Kōrero* features the work of another outstanding Māori artist who lives in Kaiti. **Mel Tahata** grew up in Kaiti before heading off to Auckland and studying at Elam art school at the University of Auckland. Working in a whole lot of different ways – Mel is a sculptor, a film-maker and a DJ – her show *Mauri Ora* at the Tairāwhiti Museum earlier this year was a series of sculptures using found materials, which talked about local issues she'd been thinking about since her return to Gisborne in 2005. We've illustrated *Kaiti for Life*, which was included in Mel's show at the museum, and we think it is a masterpiece with a great message.

From Te Poho o Rawiri, carrying the past into the present, to Mel Tahata taking Māori art into the future, we think Kaiti is a suburb with more talent than you can shake a chisel at. Ka Pai Kaiti!

# Dob in an Artist!

Does granded spend a lot of time in the garage making strange things out of wood? Is aunty spending a lot of time in the harakeke? Do you suspect your neighbour of having artistic talent? Is your child the next Picasso or Pine Taiapa?

If so, KaPai Kaiti wants to hear from you! Dob In An Artist is your chance to let us know about your talented family, friends and neighbours. They will get a write-up in *Kaiti Kōrero*, and KaPai Kaiti will put their names in our Art of Kaiti database.

We think Kaiti is by far the most creative suburb in Gisborne, so help prove our theory right!

Young and old, Pākehā and Māori, traditional, modern or post-modern, we want to know who they are and what they make.

Kaiti for Life (2007) is made from an old polar fleece blanket, sewn with white denim and red polyester satin. Mel created the stencil, and then projected it onto the fabric at a large scale and cut it out. Her mother helped to sew the artwork, which is fully machine washable.

Inspired by Bro'Town and the slogan 'Morningside for Life', Mel has created a patch for everyone in Kaiti to wear with pride. Showing that sculpture doesn't just have to be stone, wood or bronze, *Kaiti for Life* is funny, smart and warm hearted.

KaPai Kaiti is a Kaiti residents association open to anyone committed to making Kaiti an even better place to live.

#### Car Crusher

Is there a wreck in the back yard that you'd love to get rid of? Tired of that restoration job that never quite got finished? Sick of looking at that old fridge or washing machine that didn't make it to the dump?

Bay-Press Metal Recyclers would love to hear from you. They have a free service available to anyone who would like to get rid of scrap metal in the form of cars or whiteware. For no cost they will collect your scrap metal and take it away. If you have some grass you'd like to see again before Christmas, give them a call
